The committee having retired, returned, introduced Hon. William A. Magee, the Mayor-elect, who took and subscribed to the oath of office, which was administered to him by President **Edwards**, of Select Council.

Mayor Magee said:

"Mr. Chairman and Gentlemen of Select and Common Councils—I have expressed myself so frequently in the recent past upon all the questions before the people of our city about their affairs that it may not be necessary now to go over the whole ground again at length.

"One thing I wish to emphatically reiterate is, that I fully appreciate, in the highest degree, the sense of responsibility that a public servant should feel to his constituents. The sacred trust committed to me by the people will never for a single moment be out of my consciousness. And I think I have made it plain, heretofore, that I am not unaware of the complexities and difficulties of the office of chief magistrate of a great city. I have expressed frequently an acknowledgment of my own limitations, but I have also placed myself on record as being prepared to give my whole time and whatever energy and ability I am possessed of to the service; at the same time to view every matter from the standpoint of the best interests of the people of every class and condition, and to put away every thought of personal gain or selfishness. I pledge myself, through you, the representatives of the people in the legislative branch of the government, that I will strictly conform to these obligations.

"The magnitude of the problems, the amount of routine, the quantity of persons having business with the city, and the number engaged in doing the work of this city, is perhaps unequalled by those of any state in the Union, and is surpassed only by a few cities of greater population.

"It has been well said that the most striking social phenomenon of the last generation is the rapid expansion of great cities. Not only has a large heterogeneous population been suddenly thrown together within narrow territorial confines, causing a great mass of business in which all have a common or mutual interest, but the very intimate association of so many human beings has given rise to new situations and necessities in the light of modern progress hitherto undreamed of. And when these matters come to be formulated for action they must be considered from so many points of view and, being of interest to all, must necessarily, in their solutions, be subject to the critical judgment of so many different minds, that it is not strange that results do not often meet with the highest expectations.

"American city government has often been called the weak point in our democratic system. European municipalities and the results attained there cannot be compared fundamentally with ours. We are making a vast experiment in self-government. We are feeling our way along a new path which we believe will eventually lead to the highest efficiency and at the same time keep the destinies of the people in their own individual hands, and not compel them to submit themselves to the direction of any superior power, no matter how enlightened and benevolent, either in the socialistic or paternal form. The progress has been slow.

"The success of all government depends upon the men who make and execute the laws and the extent to which their acts can be affected by the play of public opinion. In our own city and in our own time there have been three charters, each based upon a different conception. The first previous to the year 1888, based on the theory that the best results could be obtained by a large number of executive officials, placed all branches of the service under boards or commissions selected at different times and in a variety of ways. From 1888 to 1901 the business was more consolidated, and, although the number of executive officials was reduced, they were selected by Councils. Both systems were justly criticised, because responsibility to the people was too widely distributed. Where, as was often the case, one matter came within the cognizance of more than one branch or department of the service and the inevitable claim of jurisdiction or denial of responsibility arose, it frequently became impossible for the public mind, immersed naturally in personal affairs, to bring the public servants to account. As a remedy to this condition this city, as well as most other large cities in this country, adopted the Federal plan, vesting all the executive powers of the municipality in the Mayor. In thus placing this enormous power and responsibility of administration upon one man they take no little risk. They commit to him and his subordinates a great mass of business in the nature of routine and detail that they do not hear of or know of, and, except when it affects them individually, do not care about. They look to him to give special study to their common wants and necessities, and expect him to be the inceptive impulse for changes and improvements. But most important of all, they have committed to his administration of the law the safety of their lives, their health and property, and, to a considerable degree, the public morals and general welfare.

"The dominating thought of myself and my assistants during the next administration will be a sense of duty to the city. The police power shall not have any taint of alliance with vice or crime; the health of the public, and particularly of the poor, will be safeguarded zealously, and the discoveries of modern science further applied to meet conditions; a liberal policy will be followed regarding innocent recreation and amusement of the people, and particularly of the rising generation. Steps

must be taken to initiate a new policy upon the subject of parks and the spirit of play further stimulated in order that the people can have the opportunity to counteract the tendency toward physical degeneration incident to congested city life.

"The paramount question before the community, and which requires immediate attention and first action, is the bringing about of different conditions in the conduct of the business of the Pittsburgh Railways Company. I intend to communicate to your honorable bodies in a more formal manner my ideas upon that situation.

"It has been said that 'every city needs a city plan.' A wise idea, and one giving much food for thought. The administration will consider it a duty to begin an investigation of the subject with a view to local application.

"The project known as the removal of the hump, which has received much attention for many years, but which met with the disapproval of a referendum some years ago, should be revived and given careful attention, with a view to again submitting it to a popular vote. In this connection, and with the further idea of relieving street congestion, the widening of such streets as Oliver avenue and Diamond street may be extended. The freeing of the bridges, the abolishing of grade crossings, the disposal of the sewage, the extension of the filtered water service, will all receive immediate attention.

"The notion of a city plan, the reduction of the sewage and many other matters of necessity cannot be adequately treated with exclusive reference to the present territorial limits of the city. We have one community extending from McKeesport to McKees Rocks and from Aspinwall and Oakmont to Emsworth that has a common destiny—common interests both of a general and a particular nature, and that has no separation except by the lines of local growth. They have so grown in population that they directly touch upon each other and have no reason for separate corporate existence except in some cases a selfish and parochial spirit really inimical to their own best interests as well as to the whole community. A movement should be immediately started with the intention of annexing and consolidating all adjoining built-up territory.

"The administration will at all times uphold the principle, now well settled, that no further franchises shall be granted, unless there be exceptional reasons, without compensation and only for limited periods.

"On the subject of the routine administration, I promise vigilant attention to detail; courtesy and attention to those having business with the departments and bureaus; economy in management; impartiality in public contracts, and a systematic and detailed method of book-keeping and accounting. A bureau or department of supplies should be introduced into the administration at the earliest possible moment, but I believe this must necessarily be postponed for this year owing to the lack of an appropriation.

"The spirit of the time has made movements among public-spirited citizens of an aesthetic, sociological and humanitarian nature a feature of communal life. While there may be much question as to the extent to which these activities come within the sphere of governmental supervision and administration, there can be no doubt of the boundless possibilities contained in this unselfish work and that a city government without being committed to any particular policy can be of great assistance in a general sense to these uplifting forces. Our administration shall lend the aid of its machinery to all praiseworthy causes of this character.

"While the law draws a clear line of demarcation between the law-making and law-executing branches of the government, the business of the city should bring and keep the members of both closely together. I express the hope that the relations between the two departments may always be amicable and satisfactory to both. I am not one of those who sees any impropriety or who frowns upon informal communications regarding the public business between officials of the different branches. You, as members of Councils, coming from different parts of the city, are looked to by your constituents to act as their agent in many perfectly legitimate transactions they have with the executive departments. Those at the head of the administrative side will lend their assistance to the members of your honorable bodies for the asking, and on the larger questions of policy desire an intimate and friendly spirit to prevail in order that misunderstandings may not cause a confusion of action and a working at cross purposes to the serious detriment of the city. Comment and criticism made in good faith is desirable and welcome. Advice in advance of action still more desirable, for it will frequently prevent mistakes. The members of the legislative department, as well as the public, are invited to make suggestions and to offer ideas. While the discretion vested in the Mayor is great, there is no disposition on my part to exercise it in an arbitrary manner. On the other hand, when I must take a course and make a decision between two opinions, or, according to my own belief of the right policy, I hope that I may always have the courage to do so regardless of all contrary opinion, and then I ask those who do not agree with me to remember that they have committed the final judgment to me and to at least await the outcome. I shall feel the more certain of my course and more assured of a successful administration in the conscientious intention of doing, in each matter, what I consider the city's best good.

"Greater Pittsburgh is a great city. Surrounded by natural resources, the development of which have drawn to it an enormous and variegated collection of human beings, it has become the center of one of the most largely populated and busiest districts of the world. Its topography and environment multiply the difficulties and cost of its management. If it has been somewhat laggard in its development and opportunities in

some respects, there are reasons to excuse it to a large extent. But many believe that a new day has dawned; that a new civic spirit is being aroused; that the body politic has given evidence of an interest in the general welfare that will arouse into activity the latent abilities of our people for the public good.

"We are citizens of no mean city. Having the proud distinction of having been selected for a period as the chief individual factor in the direction of its business and civic development, I accept the task and its responsibility with the intention of giving to my fellow-townsmen and my city the best that is in me, with no other hope of reward than that I shall at the end of my term of office have done something for the common good and earned in some degree the approbation of my fellow-citizens."

RULES OF SELECT COUNCIL.

1909-1911.

On the first Monday of April, 1909, and the same time every second year thereafter, at 10 o'clock A. M., the Councilmen-elect with those holding over shall assemble in their respective rooms and organize.

The Clerk of Councils shall preside until a President shall be elected. He having received from the Prothonotary a certificate of the members-elect shall audibly read the same, and they, with those holding over, shall elect viva voce, from their numbers, a President, who shall be sworn or affirmed by one of the elect.

The President shall then administer the same obligation to other elect members.

A message shall be sent to the other Council stating the organization, names of officers and readiness to proceed with business. Rules for the government of Councils are then adopted.

JOINT SESSION.

Section 1. The Councils in each year for which city officers have been elected shall meet in joint session at 12 o'clock M., after their organization, and the oath of office shall then be administered to the Mayor-elect by the presiding officer of the joint session in the presence of the members.

Section 2. All joint sessions shall be held in the Common Council chamber, where the Presidents of both Councils shall preside, the President of the Select Council having precedence, and the rules of order adopted by that Council being in force.

Section 3. When a vote shall be taken by the Clerks they shall call the roll of their respective Councils in alphabetical order, beginning with the Select. They

shall journalize the joint proceedings, but record the votes, each of his branch only.

Section 4. The joint session shall be terminated at any time on a vote to that effect by either branch.

RULES OF ORDER.

RULE I.

Section 3. At special meetings of Council the business for which the call has been made shall be first in order, after the minutes are read and approved. When that is disposed of business may be taken up in the same order as at stated meetings.

And no member shall depart without leave from the President. In the absence of the President the members present shall elect a President pro tempore so soon as the Clerk shall announce the presence of a quorum. Should no quorum attend within twenty-five minutes after the hour appointed for the meeting the Council shall thereupon stand adjourned to such time thereafter as the President, or, in his absence, the members present shall determine, or, should the members present so determine a recess may be taken, and the members sent for as provided by Ordinance.

5. Unfinished business of this Council.

RULE III.

Duties of President and Members.

Section 1. The President shall rigidly enforce all rules adopted for the government of Council, shall preserve order and decorum, and in debate shall prevent personal reflections and confine members to the question under discussion. When two or more members arise at the same time he shall designate the one entitled to the floor. He shall decide all questions of order, subject to an appeal from his decision.

Section 2. When a member is about to speak or communicate any matter to the Council he shall arise and respectfully address himself to the President, confining his remarks to the subject before the Council and avoiding personal reflections; and no member, unless by permission of Council, shall in any one meeting speak more than twice on the same matter, nor in the aggregate more than ten minutes; provided, that the chairman of a committee—the matter of whose report shall be under discussion—shall speak twenty minutes in the aggregate, should he so desire; nor shall any member, while speaking, be interrupted, except by a call to order by the President, or by a member through the President, or by a member to explain.

Section 3. Every member presenting a paper to the President for the consideration of the Council shall first indorse his name thereon and state its general purport; and the name of such member, as also of every member who shall make any motion, shall be entered upon the minutes of Council.

Section 4. If any member in debate transgresses the rules of the Council the President shall, or any member may, through the President, call him to order. The member so called to order shall, unless permitted to explain, immediately sit down until the question of order be determined, and if the case requires it the member so called to order shall be liable to a fine not exceeding five dollars or to a censure of, or expulsion from, the Council.

RULE IV.

Conduct of Business and Debate.

Section 1. All Ordinances for the appropriation of money, and all resolutions or orders to enter into contract, whereby the city shall or may become liable for the payment of money; all Ordinances and resolutions of a general or permanent character, shall be fully and distinctly read on three different days in the Council in which they originated, unless the rule shall be dispensed with by a vote of three-fourths of the members present in the Council in which the same may be pending, and shall, when not otherwise provided, require for their final passage or adoption the concurrence in each Council of a majority of the members elected. All votes shall be taken viva voce, or by standing, unless the yeas and nays shall be required by law, or demanded, and such demand sustained by at least one-tenth of the members present.

Section 2. The yeas and nays may be demanded on any question at any time before the vote shall have been announced; and if, upon notice thereof given by the President, the demand be sustained by one-tenth of the members present, the Clerk shall take the vote by calling the names of the members in alphabetical order, except that the President's name shall be called last, and the vote so taken shall be recorded in the minutes.

Section 3. No Ordinance shall be passed except by bill, and no bill shall be so altered or amended on its passage as to change its original purpose.

No bill shall be considered unless presented in Council by a member, referred to a committee, returned therefrom and printed for the use of the members, and a copy of each bill (with exception of those authorizing sewers or grading, paving and curbing) mailed to each member at least 48 hours previous to a meeting of Council, and when a bill is returned from the committee with a negative recommendation it shall be printed only upon order of either branch of Councils.

No bill shall be passed containing more than one subject, which shall be clearly expressed in its title.

Section 4. Every bill shall be read at length; all amendments made thereto shall be printed for the use of the members before the final vote is taken on the bill, and no bill shall become a law on the same day on which it is introduced or reported. On its final passage the vote shall be taken by yeas and nays, the names of the persons voting for and against the same be entered on the journal, and a majority of the members elected be recorded thereon as voting in its favor.

No amendments to bills by one branch shall be concurred in by the other except by the vote of a majority of the members elected thereto, taken by yeas and nays, and the names of those voting for and against recorded upon the journal thereof, and reports of committees of conference shall be adopted by either branch only by a vote of the majority

of the members elected thereto, taken by yeas and nays, and the names of those voting be recorded on the journals.

Section 5. Every legislative act of the Councils shall be by resolution or Ordinance.

No Ordinance giving any extra compensation to any public officer, servant, employe, agent or contractor, after services shall have been rendered or contract made, nor providing for the payment of any claim against the city, without previous authority of law, shall be passed, except by a two-thirds vote of the members elected in either branch.

Section 6. When any bill upon its third reading and final passage receives the votes of a majority of the members of Councils present, but not a majority of those elected, such bills shall be considered as laid upon the table, and may be called up for further action at the same or any subsequent meeting of Council.

Section 7. No Ordinance, nor section thereof, shall be revised or amended unless the new Ordinance contains the entire Ordinance or section, revised or amended, and the Ordinance, section or sections so amended shall be repealed.

Section 8. When a question is under consideration no motion shall be received, except for adjournment, for the previous question, to lay on the table, for postponement indefinitely, for postponement to a time certain, for commitment or for amendment. The questions shall have preference in the order in which they are above mentioned, and the first three shall be decided without debate. A motion to lay on the table being agreed to shall place the subject in the order of unfinished business.

Section 9. When a question has been once taken and decided affirmatively or negatively, it shall be in order for any member who may have voted in the majority to move for reconsideration; but no motion for reconsideration shall be in order unless made on the day which the vote may have been taken, or the next subsequent meeting thereto, and before final action of both Councils may have placed the matter voted upon beyond recall; and if, before the motion to reconsider be made, the action to be considered shall have been communicated to the other Council the motion shall be to recall and reconsider, and if the motion shall be agreed to the Clerk shall inform the other Council thereof, and the papers in connection therewith shall then be returned for further action to the Council in which the motion to reconsider was made; provided, the other Council has taken no action on such subject. In case of a tie vote none but a member voting in the negative shall make a motion to reconsider. A motion to reconsider shall take precedence of all other questions, except a motion to adjourn, and no member shall speak on the question more than once, or for a longer time than five minutes; no second motion to reconsider any question shall be entertained.

Section 10. The previous question shall not be moved by less than ten

members rising for that purpose, and shall be determined without debate. But when the previous question has been called and sustained it shall not cut off any pending amendment, but the vote shall be taken without debate on the amendments in their order and then on the main question.

Provided, however, that at least two hours' notice shall be given at the time when the previous question shall be called on the bill on second reading.

Section 11. No rule shall be suspended but by an affirmative vote of three-fourths of the members present, and such vote shall be taken without debate.

Section 12. When a blank is to be filled the question shall be first taken on the largest sum, the greatest number, and the most distant date.

Section 13. A motion for adjournment shall always be in order, except while a member has the floor, or when Council is voting on any question, or when in a call for the previous question the main question shall have been ordered to be now put, and shall be decided without debate.

RULE V.

Section 3. In such joint session a vote by Council may be called for by any seven members, in which case the concurrent affirmative vote of both branches shall be necessary for the passage of any motion, resolution or Ordinance.

Section 2. All joint sessions shall be held in the Common Council chamber, where the Presidents of both Councils shall preside, the President of Select Council having precedence, and the rules of order adopted by that Council being in force.

Section 3. When a vote shall be taken by the Clerks they shall call the roll of their respective Councils in alphabetical order, beginning with the Select. They shall Journalize the joint proceedings, but each record the vote of his own branch only.

Section 4. The joint session shall be terminated at any time, on a vote to that effect by either branch, whereupon the Select Council may retire.

Section 5. No final affirmative action of such joint session shall be valid and effectual until ratified by each branch in its own chamber, and a vote upon the question of ratification shall be taken immediately upon the adjournment of the joint session without debate.

BUSINESS FROM COMMON COUNCIL.

C. C. No. 187.

Mayor's Office.

Pittsburgh, Pa., June 1, 1909.

To the Select and Common Councils of the City of Pittsburgh:

Gentlemen—I beg to call your attention to Item 4, Appropriation No. 29, of the Appropriation Ordinance of 1909, providing the sum of ten thousand dollars for the use and purpose of aiding the Flood Commission of the Chamber of Commerce in its investigation of flood conditions and damages caused to the people of Pittsburgh by the same.

The said commission, after a preliminary investigation at its own expense covering a period of one year, has arrived at the stage where they have determined upon a comprehensive plan of action in their investigation, which will include a survey of the district affected within the limits of the city and a survey of certain portions of the water sheds and streams which affect this district, with a view to determining whether or not such conditions can be corrected and damages to property and the inconvenience of the people avoided; by walls or dikes along the river banks; by the elevation of the ground subject to overflow; by deepening and correction of navigable parts of the river channel; by the erection of storage reservoirs; by forestation of water sheds, and by any other means that may be proposed of a practical nature.

It is estimated that the sum of seventy-five thousand dollars will be needed for the actual work of ascertaining a complete plan for methods of flood protection about the city and flood prevention. The latter refers to the matter of impounding in the troublesome tributaries of our local streams and keeping away from our city the flood crests now so destructive to the vast interests of this city. Of this sum much more than ten thousand dollars must be expended within the city.

The commission is composed of a large number of public-spirited business men and reinforced by some of the leading engineers of the city, all of whom have given and are willing to continue to give their services to this examination without remuneration. It is the plan of the commission to call upon the owners of the property immediately affected to bear the expense of the investigation to the amount of seventy-five thousand dollars, and as the city owns and controls a part of the area in its wharves, public streets and other property, besides having its general interest in the matter, I beg to suggest to your honorable bodies that this sum be contributed to said Flood Commission in accordance with the intention of the Councils at the time the appropriation was made.

I suggest that this sum be given only upon condition that the same be used for the surveys to be made within the city.

Respectfully submitted,

WILLIAM A. MAGEE,
Mayor.

In Common Council June 1, 1909. Read, received and filed.

Department of City Controller.

Pittsburgh, June 14, 1909.

To the Select and Common Councils of the City of Pittsburgh:

Gentlemen—Your attention is called to the condition of the Contingent and Finance Funds, both of which are about exhausted.

The amounts in several instances charged to these funds were unexpected, and therefore no provision was made to meet them. Several of the items are quite large. This is especially the case in the bills for costs. These costs are for the revival of delinquent tax and municipal liens, and in most cases the property against which they are filed is without any value. Several years ago I

recommended a Resolution authorizing the City Solicitor and the Collector of Delinquent Taxes to drop these properties from their respective lists, but no action was taken in the matter.

Yours respectfully,

E. S. MORROW,

Controller.

MAYOR'S OFFICE.

Pittsburgh, Pa.

September 13, 1909.

To the Select and Common Council of the City of Pittsburgh.

Gentlemen:

In accordance with the Act of Assembly making it the duty of the Mayor to recommend to Councils such measures connected with the affairs of the City as he may deem expedient, I hereby suggest to your honorable bodies the consideration of a number of matters of immediate importance to the welfare of the City.

I beg to recommend the creation of a Board of Water Assessors in accordance with the powers granted in the recent Act of Assembly (May 8, 1909, P. L. 477) authorizing the same. The finances of the water system need thorough overhauling. Present charges in many cases are plainly wrong. Just complaint is made as to excessive charges in some cases and there is reasonable ground for belief that in many other cases the rates are deficient. The extension and maintenance of the water system requires the greatest outlay of any department of the City government. It is beyond the task of one man to thoroughly investigate and re-establish it on a sound basis.

I desire to call your attention to the Act of May 31, 1907 (P. L. 349), providing for the appointment of a Tree Commission in municipalities of the Commonwealth and defining their powers.

The purposes of the Act are in line with the modern and progressive conception of the jurisdiction of municipal government. In order to take advantage of the provisions of the Act, the same must be accepted and adopted by joint resolution of City Councils.

As following the wise example of other large cities, I beg your honorable bodies to give consideration to a bill prohibiting the indiscriminate use of fire works and toy fire arms. This is directed principally towards a sane celebration of Independence Day, a good illustration of which we had on that occasion this year. The people by common consent abstained in very large measures from the practices indulged in at former events with the result that the community escaped almost without fatality and with only a few accidents. Public opinion being now crystallized it needs now only the sanction of law to abandon a foolish habit, accomplish a great saving of life and limb and restore to our National holiday the sacred character it was originally intended to have.

Respectfully submitted,

WILLIAM A. MAGEE,
Mayor.

Which was read.

Noes—Messrs.

Baum	Hetzel	Williams
------	--------	----------

When the name of Mr. Hetzel was called, he arose and said:

"Mr. Chairman and Gentlemen:—I wish to enter a protest against voting for this bill as it is at present. It provides for \$3,000,000 for the supply and distribution of water, and I would like to

know for what plant, what water pipes is this money to be spent on? It also provides \$1,500,000 for regrading, repaving and improving the streets, but it don't say what streets—it don't say Penn avenue, or any other street. I suppose it means part of the "Hump." The bill provides \$700,000 for the purchase of parks and public playgrounds, but it don't say what parks or play grounds.

I think it is a mistake to lump these items, and think the people should vote for the items individually. This is the first time I ever heard of a blanket ordinance being passed for the issue of bonds, and I don't think it is right. I vote 'No.'"

When the name of Mr. Liggett was called, the arose and said:

"Mr. Chairman:—While I am going to vote in favor of this measure, I want to protest against voting for the whole business at one time—I believe the items should be separated. I vote 'Aye.'"

When the name of Mr. Ross was called, he arose and said:

"Mr. President and Gentlemen:—Before voting on this bill I wish to say that I believe this proposition should be voted for in separate items, and most of my constituents believe the same way. However, the question is up to the people, and the ordinance is the way the Mayor wants it, and they are the people to decide how these things shall be done. I vote 'Aye.'"

And the Ayes were 16.

And the Noes were 3.

And a majority of the votes of Select Councils being in the affirmative, the bill passed finally.

And upon motion of Mr. Kuhn,

Council adjourned

Dillinger Williams

When the name of Mr. Dillinger was called he arose and said:

"Mr. Chairman, I am going to vote 'No' on this Ordinance because I think it is my duty to do so. When this Civil Service Commission was appointed they were appointed with the understanding that they were to serve for a certain stipulated salary. I am informed that they serve regularly one afternoon a week, possibly about two hours in the afternoon. If this is true, for men occupied during most of the time at their regular occupations, \$75.00 a month is pretty good compensation. This is more of an honorary position, and I understand that the positions were accepted as such, and for an honorary position, where but a small portion of their time is occupied, \$75.00 a month is a fair compensation; don't you think so? We cannot compare the Civil Service Commission of this city with those of Philadelphia, New York or Chicago, where I understand it takes all of their time to attend to the work. If I am wrong in my position I would be very glad to vote 'Yes,' otherwise I'll have to vote 'No.'"

No. 354. Whereas, The Crescent works of the Crucible Steel Company of America, located in the old Seventeenth ward, were, in the year 1908, as a minimum charge, assessed 10% of the flat rate, which resulted in a water tax vastly in excess of the amount actually used, which taxes are now delinquent; and

Whereas, In the year 1909, the minimum charge was readjusted, in accordance with the size of the meter, which resulted in a very much less water tax, which taxes have been paid, than in 1908; therefore, be it

Resolved, That an exoneration be granted to The Crucible Steel Company of America sufficient to equalize their water taxes for the three quarters of the year 1908 with the taxes of 1909, amounting to \$1,092.01.

Whereas, The Director of the Department of Charities found on investigation that the method of distributing outdoor relief in the North Side district was more costly and not as satisfactory as the method pursued in the old Pittsburgh district, and therefore changed the method to that used in the latter district; and

Whereas, This change necessitated the furnishing of a much larger number of hams than was contemplated in the original contract; and

Whereas, Since the award of said contract the price of California hams has advanced to 12½¢ per pound, and his bid for furnishing them was 8½¢ per pound, thus entailing a heavy monthly loss on each order; therefore

Resolved, That the Mayor and the Director of the Department of Charities shall be and are hereby empowered and directed (by and with the consent of Henry Kreiling & Co., the contractors for furnishing California hams to the Department of Charities) to annul the said contract and to release the bondsmen from all liability under it, in as far as California hams are concerned.

The Chair presented

No. 477.

Mayor's Office.

Pittsburgh, Pa., Dec. 22, 1909.

To the Select and Common Councils of the City of Pittsburgh, Pa.:

Gentlemen—I return herewith, without my approval, S. C. No. 354, being the exoneration of water taxes of the Crucible Steel Company of America at its Crescent works for the year 1908.

I am advised that the Crucible Steel Company was assessed at the same rate as all other similar consumers during the year 1908, none of whom was exonerated for it, and all of whom, on the contrary, have presumably paid. The fact that the rate for that year was different than for the following years does not prove its injustice. Thorough consideration of the question leads me to the conclusion that the rate for the year 1909 is too low rather than the rate of 1908 too high. Furthermore, to open up this subject more than a year after this tax should have been paid will unsettle the water assessment for the year 1908 for that class of consumers.

Respectfully submitted,

WILLIAM A. MAGEE,

Mayor.

Which was read.

Mr. Weber moved

That the communication be received and filed.

Which motion prevailed.

And

S. C. No. 354. Whereas, The Crescent works of the Crucible Steel Company of America, located in the old Seventeenth ward, were, in the year 1908, as a minimum charge, assessed 10% of the flat rate, which resulted in a water tax vastly in excess of the amount actually used, which taxes are now delinquent; and

Whereas, In the year 1909, the minimum charge was readjusted, in accordance with the size of the meter, which resulted in a very much less water tax, which taxes have been paid, than in 1908; therefore, be it

Resolved, That an exoneration be granted to The Crucible Steel Company of America sufficient to equalize their water taxes for the three quarters of the year 1908 with the taxes of 1909, amounting to \$1,092.01.

Was read.

And on the question, "Shall the resolution become a law notwithstanding the objections of the Mayor?"

The ayes and noes were taken agreeably to law, and were:

Ayes—Messrs.

Frederick	Hetzl	Williams
Gulland	Lennox	

Noes—Messrs.

Baum	Kohne	Sauer
Burns	Kuhn	Schlernitzauer
Cronmiller	Liggett	Schroedel
Isler	McCaig	Sisk

Edwards, President.

Ayes—5

Noes—16

And a majority of the votes of Select Council being in the negative, the objections of the Mayor were sustained.

Croniniller	Lennox	Sisk
Frederick	Liggett	Weber
Isler	McAig	Williams
Kearns	Ross	

Edwards, President.

Noes—Messrs.

Burns	Kohne	Schlernitzauer
Hetzel	Sauer	

When the name of Mr. Gulland was called he arose and said: "Mr. President, I wish to explain my position in this matter. I would like to vote in favor of this resolution if it is a legal claim, but as we have no opinion from the City Solicitor relative to the legality of the claim I do not feel that I can vote intelligently, so I will not vote at all."

When the name of Mr. Kearns was called he arose and said: "Mr. Chairman, I was a member of the committee to investigate this claim. This man drew up two sets of detail plans and two sets of working plans, and I believe he should be paid for his work, and I therefore vote 'Aye.'"

When the name of Mr. Kohne was called he arose and said: "Mr. Chairman, the last administration wouldn't pay this claim, as they said this man had no legal claim against the city, and I therefore vote 'No.'"

When the name of Mr. Weber was called he arose and said: "Mr. Chairman, I believe the laborer is worthy of his hire, and as this man did the work I believe we should pass the resolution, and put it up to the Mayor, who is himself an attorney, and if he don't think it a just and legal claim he can veto it, and we will stand by him. I vote 'Aye.'"

And the ayes were 15.

And the noes were 5.

Hoffman, has been assessed by the City of Pittsburgh for street improvements, sewers and general taxes to the amount of \$19,361.13, as shown by statement hereto annexed; and

Whereas, The said land is mainly used for farming purposes and the income therefrom is small and the said property is at the present time unmarketable and the owner is unable to pay the said assessments; and

Whereas, If the payment of the said assessments is enforced by the sale of the said property, it is probable the city will be compelled to buy in the same; and

Whereas, It is believed the assessments are in excess of the benefit accruing to the said land by reason of the improvements, and that it would be equitable to reduce the same; and

Whereas, The owner of the said land proposes to pay the city the sum of \$14,000.00 in full settlement of the said assessments and taxes, and it is to the advantage of the city to accept the said sum rather than to enforce a sale of the land; therefore be it

Resolved, That the City Attorney be authorized and directed to receive from the said Elizabeth T. Hoffman the sum of \$14,000.00 in full payment of the said assessments and taxes, and that upon payment of said sum the said assessments and taxes and any liens therefor be marked "satisfied and fully discharged."

PRESENTATIONS.

Mr. Kearns presented

No. 485.

Pittsburgh, Pa., January 15, 1910.

Hon. W. A. Magee, Municipal Hall, City:

Dear Sir—The Board of Control of the Home for Friendless Men at No. 701 Wylie avenue, city, respectfully ask that the city make an appropriation to enable them to carry on the work during the year 1910. The work in which we are engaged is the same as that which the City of New York is doing at the Municipal Lodging House. This building was

erected and equipped at an expense of \$500,000.

The following are some of the facts taken from our superintendent's report for the month of December, 1909:

"We have had during the month 750 men who were charged the nominal fee of 15 cents for bath and night's lodging, 165 men who had nothing and were given bath and lodging free, 205 men who were sheltered over night but for whom we had no beds. Besides these there were several hundred men who had to be turned away, some because we had no more room, others because we did not consider them worthy. We have nothing to do with the 'habitual hobo' or the 'habitual drunk.' The police can best care for them. Our motto is, 'Help the man who is willing to help himself.'"

The house we occupy for our work contains fifteen rooms, and is capable of accommodating 43 men per night.

The expense of the work for one month is as follows:

Rent (part of which was paid by repairs in advance).....	\$ 60 00
Superintendent's salary	65 00
Janitor's salary	40 00
Janitor's helper	25 00
Light and heat.....	25 00
Laundry	5 00
Soap	2 00
Replenishing supplies	20 00

Total monthly expense.....\$242 00

Estimated yearly expense, \$2,900.00.

We ask for an appropriation of two thousand (\$2,000.00) dollars for this work for one year.

Trusting that you will give this matter serious consideration and that it will receive your favorable endorsement, I am,

Very truly yours,

WM. H. WHITFIELD,

Mr. McCaig presented

No. 486.

Pittsburgh, Pa., January 24, 1910.

To the Honorable the Select and Common Councils of the City of Pittsburgh:

Gentlemen—The intention of the Ordinance herewith presented is to repress

begging, to discourage undesirable characters from coming to Pittsburgh, to prevent the lodging of homeless men in police stations, and to promote self-support in honest unfortunates, by the establishment and maintenance of a Municipal Lodging House.

The Municipal Lodging House will provide, for homeless men, a clean bed, compulsory bath, plain food, fumigation of clothing and an appropriate work test, by which all able-bodied men will be required to pay in labor for what they receive. Each applicant will be investigated by the superintendent, who will communicate with relatives, previous employers or other references of each man in order to determine how he may be helped, or forced, out of dependence. Through co-operation with employers and philanthropic agencies, the superintendent will endeavor to aid sincere men in securing employment. Medical inspection will be provided in order to prevent contagious diseases, to determine each man's ability to work, and to assure the reference of each case, where necessary, to a hospital or dispensary for treatment.

When the Lodging House is open police stations will cease lodging homeless men. Policemen throughout the city will be requested to prevent men from begging for meals, lodging, etc. When a lodger has refused appropriate employment, or given other evidence of unwillingness to help himself, he will, through the co-operation of the Police Department and the courts, be prosecuted as a vagrant or under any other appropriate charge.

To secure the needed co-operation of charitable agencies, business men and householders, and to assure the use of the most efficient methods developed in the experience of other cities, it is proposed that for the management of the Lodging House the Mayor shall appoint annually a special Board of Directors to serve without pay, and to include the Director of the Department of Public Safety, the Director of the Department of Charities, the Chief of Police, one member of Select Council, one member of Common Council and four citizens selected from a list to be submitted by the Associated Charities of Pittsburgh.

It is suggested that the sum of ten thousand (\$10,000.00) dollars, or such part of that amount as may be necessary, shall be appropriated from the city's funds for the first year's expense of rent, equipment, food, employes and other necessities. This money is to be used only for the operation of the Municipal Lodging House itself. The assistance given by the Associated Charities and by any city department is to be without compensation.

Respectfully submitted,
FOR THE ASSOCIATED CHARITIES OF PITTSBURGH,

IRVIN F. LEHMAN,
Chairman Special Committee.

MOTIONS AND RESOLUTIONS.

Mr. Kohne presented

No. 496.

Pittsburgh, Pa., January 12, 1910.

Honorable W. A. Magee, Mayor, and the Councils, of the City of Pittsburgh:

Gentlemen—On February 5, 1909, a letter was addressed to Edward G. Lang, Esq., then Director of the Department of Public Safety of the City of Pitts-

burgh, by the Pittsburgh Chapter of the American Institute of Architects (a copy of which letter is submitted herewith), calling to his attention the necessity for some action on the part of the City of Pittsburgh, looking to the revision of the building laws now in force.

The same organization called your Honor's attention, prior to your inauguration, by letter dated March 11, 1909 (a copy of which is herewith submitted, together with a copy of your reply to the same), to the necessity of a revision of the existing building laws.

The inadequacies and defects of the existing laws are serious and numerous. We ask your attention to only a few of the most important defects, as follows:

Party Walls.—No provision for the use of steel construction or reinforcing concrete.

Reinforcing Concrete.—No provision or regulations governing its use.

Classification of Buildings.—This at present is inadequate. In many instances it permits the owner to designate the class to which his building belongs.

Fireproofing.—The present law is vague and inconsistent with the best modern practice.

Definitions.—The lack of clearness in the meaning of certain words and expressions offers opportunities to violate the real intent of existing law.

Foundations.—The using of other materials than brick and stone for foundations is not provided for.

Elevators and Enclosures.—The law in regard to the materials of the enclosures and installation and inspection of elevators is not up to the best modern practice.

Stairs, Corridors, Exits and Fire Escapes.—The regulations concerning some of the same apply to a limited number of buildings only, and should be extended to include all excepting those specifically described.

Inadequacy.—The lack of clearness and meagerness of the code, together with the great discretionary powers vested by it in the inspector, results in an undeserved loss to the building public by reason of its inability to learn the law prior to the taking out of a permit. This results in the inspector, intended as an executive officer only, making up the laws from day to day, and the changing of the laws, to a certain extent, with each change in the inspector. All of these things are an unnecessary burden to the entire building public, and particularly to the Bureau of Building Inspection.

Our knowledge of the inadequacy of the laws has resulted in a concerted movement, looking to the amelioration of existing conditions, and feeling the need of your co-operation in our efforts respectfully request as follows:

1st. That you include among your recommendations to Councils, as an item of the budget for the ensuing year, one calling for the appropriation of an adequate sum of money for the purpose of paying the expenses of the clerical work

of a commission, whose duty shall be to prepare and recommend as suitable and adequate a building code for the city as is possible under the existing state laws; and

That pending remedial state legislation, there be brought into existence by the city government a commission appointed by the Mayor, whose duty it shall be to revise the building code, as above comprehended; that this commission shall consist of not more than five men of technical or professional training, and also of the very highest standing and character, and who are, in addition, peculiarly fitted for the task in hand.

That said commission shall not receive any compensation for its services, but that the expenses incident to its work shall be paid for by the city appropriation hereinabove requested.

That said commission shall have the authority to call in and consult similarly equipped men and other men engaged in building, in regard to the details of the work in hand, it being understood that the men so called in shall furnish their advice and services free of charge.

That said commission shall have the authority to co-operate with other organizations whose endeavors are coincident with its own work.

2nd. We ask the advice and hearty co-operation of the city government in bringing about the passage of an enabling act by state authority, or the changing of the existing state building law, as may be deemed most expedient and desirable for the purpose of obtaining an adequate, complete and clear building code for the City of Pittsburgh, and also providing for its automatic revision, under a proper commission, within stated periods of time, to the end that the existing conditions may not recur to the detriment of the Commonwealth.

3rd. That in the event of the above changes in the law you include among your recommendations to Councils, in the items of the budget for the then ensuing year, one calling for an appropriation of an adequate sum for bringing into existence a paid commission, constituted to complete and extend the work of the first named and unpaid commission; that this second commission shall be composed of the same number and of the same character of men, and shall have the same powers and scope as that described for the first commission: Provided, however, that said second commission shall receive proper compensation for its services and, in addition, the actual expenses incident to its work; and also shall be authorized and empowered to properly and adequately compensate other properly equipped men so called before this commission for their advice and consultation in regard to the details of the work in hand, to the end that the City of Pittsburgh may ultimately have an adequate building code.

Respectfully submitted,
EDWARD STOTZ,
Chairman;
L. BRANDT,
Secretary.

No. 566.

Pittsburgh, Pa., February 28, 1910.

To the Honorable, the Select and Common Councils of the City of Pittsburgh:

Gentlemen—We have the honor to notify the Councils of the City of Pittsburgh that the Honorable William A. Magee, Mayor of Pittsburgh, has, on the 26th day of February, 1910, appointed as

a commission three freeholders, to wit, Edward M. Bigelow, E. S. Morrow and William D. Grimes, to be known and designated as the "Shade Tree Commission" of the City of Pittsburgh, who serve without compensation, and who have conferred upon them, by Act of Assembly of May 31, 1907, the custody and control of, and power to plant, set out, etc., shade trees on the public highways of the city; and further,

That your honorable bodies, by Ordinance recently duly accepted the provisions of the said Act of Assembly, and the said Ordinance was duly passed and approved, and such Shade Tree Commissioners as aforesaid have been appointed.

That under the law, therefore, the Shade Tree Commission is a part of the government of the city, and under the terms of said act is ready to proceed with the carrying out of the intent thereof, with the approval and consent of Councils.

The Shade Tree Commission respectfully calls Councils' attention to Section 3 of said act, which provides:

"That when such Shade Tree Commissioners, or Park Commissioners so acting, shall propose the setting out or planting or removing of any shade trees, or the material changing of the same in any highway, they shall give public notice of the time and place appointed for the meeting at which such contemplated work is to be considered, specifying in detail the highways, or portions thereof, upon which trees are proposed to be planted, removed or changed in one or more—not exceeding two in all—of the newspapers published in said township, borough or city, once each week for at least two weeks prior to the date of said meeting."

It will be seen that under this section of the act any person affected has full opportunity for a hearing in the matter.

The act further provides in Section 5:

"The cost and expense of caring for said trees after having been planted or set out, and the expense of publishing the notices provided for in Section 3 shall be borne and paid for by a general tax, to be levied annually in the manner that taxes for township, borough and city purposes are now levied in such townships of the first class or cities; such tax not to exceed the sum of one-tenth of one mill on the dollar on the assessed valuation of the property in such townships of the first class, bor-

oughs or cities; and the needed amount shall each year, in due time, be certified by the Shade Tree Commissioners to the proper authorities charged with the assessment of taxes in said townships, boroughs or cities, to be assessed and paid, as other taxes are assessed and paid, and to be drawn against as required by said Commissioners in the same manner as moneys appropriated for township, borough or city purposes are now drawn against in said townships, boroughs or cities; Provided, That the Commissioners of any township of the first class, and the Councils of any borough or city, accepting the provisions of this act may provide for the expense of the maintenance of trees on highways, in accordance with the provisions of this section by actual appropriation, equal to the amount certified to be required by the said Commission, in lieu of the specific assessment above authorized."

It will be observed that the commission has complete power to levy annually a tax not to exceed the sum of one-tenth of one mill on the dollar on the assessed valuation of the property in Pittsburgh.

It will be observed, however, that the act provides that Councils may provide for the expense of the work of the Commission by actual appropriation equal to the amount certified to be required by the Commission in lieu of the specific assessment.

The members of the Commission are all, perhaps, more or less known to your honorable bodies, and it is the desire and intention that the work of the Commission be accomplished in accordance with the wishes of Councils and the administration, and the Commission approaches the question with, we believe, a true public spirit to accomplish something for the adornment of the city, and an adornment and benefit which, we believe, will endure for future generations and which will add much to the comfort, beauty and pleasure of the citizens of Pittsburgh and the beauty of the city's highways.

We most respectfully suggest, therefore, that Councils provide, by an appropriation, the sum of fifteen thousand (\$15,000.00) dollars, which we do hereby certify to be the amount required by the Commission for the year commencing March 1, 1910.

We call the attention of Councils to the fact that nearly all the great cities of the country have, for a number of years, been active in an endeavor to beautify the city streets, especially in the residential and suburban districts, and that much has been accomplished.

The amount asked for this year, we believe, to be absolutely necessary in order that the Commission may properly investigate the subject and prepare for active work in the years to come. We believe that the body of the citizens is highly in favor of the adornment of our streets by the planting of shade trees with some uniformity and in proper manner, and that the same can be accomplished with very little cost to property owners and will add much to the wealth, beauty and welfare of our great city.

The Shade Tree Commission, therefore,

respectfully asks Councils for a favorable consideration of the matter by making the appropriation asked for.

Very respectfully,

E. M. BIGELOW,
E. S. MORROW,
WILLIAM D. GRIMES.

Which was read.

Mr. Lennox moved

That the communication be received and filed.

Which motion prevailed.

No. 574.

The Sun Oil Co.

Pittsburgh, Pa., March 14, 1910.

To the President and Members of Select Council of Pittsburgh, Pa.:

Gentlemen—As chairman of the Municipal Affairs Committee of the Oakland Board of Trade, I herewith submit for your consideration the enclosed resolution passed unanimously by the Board at its last regular meeting, Friday evening last, March 11.

Hoping that your honorable body will give the matters of protest contained in the resolution the careful attention and scrutiny that the subject deserves, I am,

Very respectfully yours,

JOSEPH PANDIO,

Chairman.

"Resolved, That under suspension of the by-laws the Municipal Affairs Committee be authorized to present to Councils the protest of the Oakland Board of Trade against unnecessary increases of salary, unnecessary creation of new positions, and the enormous general increase of nearly \$600,000."

No. 575.

Department of Law.

Pittsburgh, March 14, 1910.

Select Council, City of Pittsburgh,

Gentlemen—Your honorable body having referred to me for my opinion an Ordinance approving and accepting the Schenley Farms Company plan of lots, etc., especially as to the rights of the Schenley Conduit Company under its dedication, I beg to report thereon as follows:

First. The Ordinance as it stands is too broad in its restrictions on the city in reference to overhead wires, and should be amended in this section so as to leave in the city full dominion in this respect, subject only to enumerated exceptions clearly defined.

Second. The conditions, as expressed in said Ordinance, relating to the rights of the Schenley Conduit Company are too stringent as against the city and should be modified in important particulars allowing the city more rights in the conduit system, and defining more clearly the rights of other companies in obtaining the privilege to use said conduits after they have been granted the necessary franchises by Councils to use the streets dedicated by the Ordinance.

Third. The general scope and purpose of this Ordinance to keep the streets overhead reasonably free of all unnecessary obstructions is in the right direction, as is also the provision in reference to using, as far as possible, the system of the Schenley Conduit Company for other public service, and both are in harmony with present city Ordinances and wise policy, but as this dedication and acceptance thereof are perpetual it is necessary to observe great care that the interest and rights of the public in the use of these highways are fully protected and secured.

Fourth. Amendments have been prepared, and I am advised will be offered, which I believe fully meet the view herein expressed, and will, if adopted, safeguard the interests of the city and public and will make the Schenley Plan now dedicated a desirable acquisition to the highway system of Pittsburgh.

Very respectfully,
CHARLES A. O'BRIEN,
City Solicitor.

Which was read, received and filed upon motion of Mr. Gulland.

Mayor's Office.

Pittsburgh, Pa., March 28, 1910.

To the Select and Common Councils of the City of Pittsburgh:

Gentlemen—I return, herewith, without my approval, S. C. No. 487, entitled "An Ordinance making an appropriation for the establishment and maintenance of a municipal lodging house," providing for an appropriation of \$5,000.00 to the Bureau of Police and providing for the appointment by the Mayor of a board of directors to administer the municipal lodging house, the same to be maintained by that fund.

I have very serious doubt as to the power of Council to authorize and the Mayor to appoint such a body, but object to the bill chiefly on the ground that this action will commit the city to an annual appropriation for this purpose. Your honorable bodies were requested to make an appropriation for experimental purposes only. I am willing to coincide with this view of the subject in order that the plan should be given a trial, but

the appointment of a permanent board is an assumption in advance that the city intends to enter upon the policy of maintaining such an institution.

I am not yet ready to say that I agree that a work of this kind must be maintained by the city.

Respectfully submitted,

WILLIAM A. MAGEE,

Mayor.

Which was read.
